

To our valued customers and friends

I would like to personally thank our loyal apso customers for their business and support.

The “secret to our success” during the past 30 years has been our knowledgeable and experienced team, partnerships with the biggest names in the industry, and our dedicated support teams in both Europe and North America.

As we plan for the future of apso we’ve enhanced and updated our website. The new design communicates who we are and what we do at apso and provides more details on product offerings. The **WHAT** page provides information about our carpet design software offerings: Carpet Designer, Tufted Designer Pro, Textile Designer, and Textile DTP and our fabric design software Dobby Designer and Jacquard Designer. Also visit the **WHO, WHY, NEWS,** and **CONTACT** pages to learn about our mission and vision, the latest news, and how to reach us with comments, questions and requests for information. At apso we believe our strong carpet and fabric design software offerings, a dedicated support team, and a drive to innovate are why apso will continue to be your valuable partner.

Aernout Hetem
President, COO
